Idaho General Fund Revenue

History and Projections

The following pages provide descriptions of the sources of General Fund revenue, historical rate and distribution formula information, historical revenue collection and distribution information, and a brief explanation of the basis of the forecast for each source of revenue that contributes to the General Fund.

Three primary revenue categories (individual income tax, corporate income tax, and sales tax) presently account for about 90% of General Fund revenue as of fiscal year 2004. These sources of revenue are forecast using a combination of econometric methods and judgment. The econometric method is multiple regression, using variables contained in the Idaho Economic Model (IEM). Exogenous forecast data are obtained from the January 2005 *Idaho Economic Forecast*. Both are products of the Division of Financial Management. The judgmental factors considered include the effects of rate changes, other law changes, judicial decisions, and knowledge not reflected in the econometric analysis.

Product taxes and miscellaneous revenue sources are forecast using collections history, trend analysis, law changes, receipts to date, and a broad array of contacts with individuals responsible for or otherwise involved with the collection of each revenue category. The largest miscellaneous revenue category, Insurance Premium Tax, is forecast in cooperation with the staff of the Department of Insurance, using simulation models to account for relevant variables and parameters that affect the cash flow into the General Fund.

INDIVIDUAL INCOME TAX

Description: (Title 63, Chapter 30, *Idaho Code*)

Collections from the individual income tax are based on a graduated scale of tax rates that are applied to brackets of Idaho taxable income. Current and past individual income tax rates and brackets are detailed in the following table.

INDIVIDUAL INCOME TAX RATE HISTORY

TAX	Tax Rates	s on the Portio	on of Taxable l	(ncome (1)

 $^{1. \} Amounts \ shown \ are \ for \ single \ and \ married \ filing \ separate \ returns.$

For all other filing sttus returns double theincome bracket amounts at the top of the columns.

Idaho taxable income is derived from federal adjusted gross income (AGI). For Idaho residents, income from all states is taxable in Idaho, with credit provided for taxes paid to other states. For non-residents, only income earned in Idaho is subjected to Idaho income tax. For part-year residents, income from all states is taxable during the period of Idaho residency, while only income earned in Idaho is subjected to Idaho income tax during the period of non-residency.

Although Idaho conforms to most of the federal income tax provisions for determining taxable income, a number of differences exist. Idaho's definition of taxable income excludes 100% of social security income, 60% of certain capital gains, and 100% of interest earned on U.S. government securities. For a complete delineation of Idaho's income tax structure, refer to the tax structure section of this publication.

Idaho also provides a number of credits that are not included in the federal tax code. These include an investment tax credit, credit for contributions to educational entities, and several credits linked to investments in broadband equipment, research activities, and job creation. Again, for a complete delineation of Idaho's income tax structure, refer to the tax structure section of this publication.

^{2.} Rates shown include 7.5% surcharge on all brackets. Effective in 1955 and 1956.

^{3.} Rates shown include 10% surcharge on brackets greater than \$2000. Effective in 1957 and 1958.

Idaho income derived from wages and salaries is subject to payroll withholding. Idaho does not require estimated payments for individual income tax, so tax payments derived from business income and most investment income are paid when the tax return is due (typically April 15th following the end of the tax year). A number of Idaho taxpayers make voluntary estimated payments at the end of the tax year (typically December 31st) in order to claim the payment on the same year's federal income tax return.

Since the enactment of Idaho's income tax in 1931, all net tax liability, interest, and penalties have been distributed to the General Fund. Beginning in FY 2001, withholding collections on Idaho lottery winnings are distributed to public schools and counties. An amount equal to 20% of the individual income taxes collected by the State Tax Commission and deposited with the State Treasurer is required by statute to be deposited in the State Income Tax Refund Fund. Any balance exceeding \$400,000 in the State Income Tax Refund Fund at the end of the year is transferred to the General Fund on June 30.

A separate filing tax of \$10 per income tax return has been assessed since 1959. Proceeds of the filing tax went to the General Fund until 1961 when their distribution was changed to the Permanent Building Fund. The income tax return form includes a variety of other "check offs" that can be used by the taxpayer to donate various amounts (usually from refunds) to special funds such as non-game wildlife, drug enforcement, etc.

Basis of Projection:

The projections of General Fund revenue from the individual income tax for FY 2005 and FY 2006 are based on a combination of econometric analysis and judgment.

The econometric analysis begins with the Idaho Economic Model (IEM), an economic base model of Idaho's economy that is used to derive employment by industry and by income type. Idaho income data is then used to correlate historical net withholding collections (gross withholding collections less refunds) to Idaho wage and salary payments. Filing collections are estimated using proprietors' income as the primary explanatory variable.

The econometric-based forecast of net withholding collections and filing collections are then adjusted to reflect: a) new features of the tax law that are expected to impact future collections and accruals, and b) effects of other factors that are expected to have impacts not reflected in the econometric analysis.

The forecast that follows assumes no further change in current Idaho income tax law, a standard practice of the Division's revenue forecasts.

CORPORATE INCOME TAX

Description: (Title 63, Chapter 30, *Idaho Code*)

Collections from the corporate income tax are currently based on a flat rate of 7.6% applied to taxable income. For a listing of earlier rates refer to the following table. Beginning with tax year 1987, Idaho conformed to the changes made by the Tax Reform Act of 1986, except for the federal investment tax credit repeal. Idaho continues to allow a 3% credit that is tied to the federal definition of eligible property. For tax year 2001, an additional "incentive" investment tax credit was allowed in low income/high unemployment counties. Extra credits are also allowed for investments in broadband equipment, research activities, and job creation. See the tax structure section of this publication for details. Also, since September 1987, Idaho has required that corporations file quarterly payments of estimated taxes. This provision is based upon federal rules and was phased in over a two-year period.

Since its enactment in 1931, all net tax liability, interest, and penalties associated with the corporate income tax have been distributed to the General Fund. An amount equal to 20% of the corporate income taxes collected by the State Tax Commission and deposited with the State Treasurer is required by statute to be deposited in the State Income Tax Refund Fund. Any balance exceeding \$400,000 in the State Income Tax Refund Fund at the end of the year is transferred to the General Fund on June 30. An additional filing tax of \$10 per tax return has been assessed since 1959. Proceeds of the filing tax went to the General Fund until 1961, when their distribution was changed to the Permanent Building Fund.

Projections of the General Fund revenue from the corporate income tax are based on a combination of econometric analysis, a simulation model of the cash-flow process under quarterly payments, and judgment. Historical corporate income tax collections are correlated with income and financial concepts found in the IEM and Global Insight's *U.S. Economic Outlook*.

The revenue collected in FY 1991 declined as a consequence of declines in one-time cash flow from quarterly payments. Quarterly payments have also accelerated the response time between changes in profit conditions and corporate income tax cash flow. When combined with multi-state apportionment, this yields an accelerated link between national economic conditions and Idaho corporate income tax receipts.

SALES TAX

Description: (Title 63, Chapter 36, *Idaho Code*)

Sales tax collections in fiscal years 2004 and 2005 are based on a temporary rate of 6% applied to the sales price or value of tangible personal property and services that are subject to sales and use taxation. The sales tax rate returns to 5% on July 1, 2005. Beginning in fiscal year 2005, the Agricultural Equipment Property Tax Exemption is funded by the Sales Tax. The rate and distribution history is shown on the following table.

^{1.} Amount equal to 1-mill of all assessed property values distributed to Teachers Retirement System;

Sales tax funds must be allocated to the Idaho Housing and Finance Association if, within 60 days of the close of the fiscal year, the Chairman of the Housing and Finance Association Board of Commissioners certifies to the State Tax Commission that a deficiency exists in the agency's Capital Reserve Fund. No such certification has been made in any year, nor is one anticipated for the current fiscal year. Beginning in 1996, this provision is limited to no more than \$89 million. Also, it only applies to bonds issued prior to 1996. In effect, this provision has been repealed for bonds issued on or after January 1996.

^{\$1,000,000} lump sum (one-time) distribution to Tax Commission.

^{2.} Amount equal to the sum required to be certified by the state controller distributed to the Social Security Trust Fund.

^{3.} Amount equal to the sum required to be certified by the Idaho housing agency.
4. \$1.00 per registration fee on vehicle registration transfers that do not involve sales tax.

^{5.} Amount certified by the Tax Commission as necessary to fund the Circuit Breaker

^{6.} Amount necessary to fund Property Tax Relief.

For the period March 1983 through June 1984 this percentage was applied only to the 3% "base" sales tax rate. Beginning in 2000, this allocation was "folded into" the revenue sharing allocation.

The projections of FY 2005 and FY 2006 net General Fund accruals from the sales tax are based on econometric analysis and judgment. Historic monthly gross collections data are first adjusted for changes in the tax rate and any major collection anomalies. The adjusted data is then related to Idaho wage and salary disbursements and construction data using econometric analysis. Income forecasts from the *Idaho Economic* Forecast are then used to forecast gross sales tax collections. Historical refund levels and the current distribution formula are used to translate gross collections to net General Fund accruals. Judgmental considerations include the results of ongoing revenue monitoring and the expected impacts of new compliance and audit activities.

CIGARETTE TAX

Description: (Title 63, Chapter 25, *Idaho Code*)

The cigarette tax rate was temporarily raised from 28 cents per pack to 57 cents per pack on June 1, 2003. The revenues collected are distributed as follows. The Public School Income Fund and Department of Juvenile Corrections each receive 5.1746 cents per pack. Of the remaining 46.6508 cents per pack, the Permanent Building Fund receives 17.30%; the Central Tumor Registry Fund receives 0.40% (to a maximum of the legislative appropriation); the Cancer Control Fund receives 1.00%; and the General Fund receives 21.25%. For fiscal year 2004, all remaining collections, up to \$23,500,000, are allocated to the General Fund. Any monies in excess of the \$23,500,000 are deposited in the Economic Recovery Reserve Fund. In fiscal year 2005, none of the remaining collections go to the General Fund, but instead they are distributed to the Economic Recovery Fund.

The cigarette tax rate returns to 28 cents per pack on July 1, 2005. Five cents per pack of cigarettes are distributed to the Public School Income Fund and five cents are deposited with Department of Juvenile Corrections. Of the remaining 18 cents per package of cigarettes, 43.3% is distributed to the Permanent Building Fund; 1% (to a maximum of the legislative appropriation) is distributed to the Central Tumor Registry Fund; 2.5% is distributed to the Cancer Control Fund; and the remainder is distributed to the General Fund.

^{1.} From March 1, 1987 to July 1, 1987 the additional \$.00445 was all distributed to the General Fund.

^{2.} The Central Tumor Registry Fund receives the lesser of its percentage or its dollar cap.

^{3.} On July 1, 1994 the \$110,000 limit was replaced with a limit not to exceed the legislative appropriation.

The projections of General Fund revenues from this source for FY 2005 and FY 2006 are based on a subjective assessment of recent collections history, Idaho population growth, cigarette taxes in border states, and the trend toward decreased per capita cigarette consumption.

TOBACCO PRODUCTS TAX

Description: (Title 63, Chapter 25, *Idaho Code*)

Idaho levies a 35% tax on the wholesale price of tobacco products, except for cigarettes. This entire amount, net of refunds, is remitted to the General Fund. An additional 5% of the wholesale price is also collected. Half of this additional amount is earmarked for the Public School Income Fund, with \$250,000 appropriated to Idaho State Police. The other half of the 5% collected is distributed to the Department of Juvenile Corrections for county juvenile probation services.

TOBACCO TAX RATE AND DISTRIBUTION HISTORY

	Percent of	of Wholesale	Price Distributed	to Fund
Effective Date	Water Poll.	General. Fund	Public School Income	Dept. of Juvenile Corr.
	Control			
Jul-1972	35.0%	0.0%	0.0%	0.0%
Jul-1994	35.0%	0.0%	5.0%	0.0%
Mar-1995	35.0%	0.0%	2.5%	2.5%
Jul-1996	35.0%	0.0%	2.5%1	2.5%
Jul-2000	0.0%	35.0%	$2.5\%^{1}$	2.5%

^{1. \$250,000} of this amount goes to Idaho State Police.

The projections of General Fund revenues from this source for FY 2005 and FY 2006 are based on a subjective assessment of recent collections history, Idaho population growth, inflation, and the trend of reduced consumption of tobacco products.

BEER TAX

Description: (Title 23, Chapter 10, *Idaho Code*)

A total tax of \$4.65 per 31-gallon barrel, or its equivalent, is levied on beer sold in Idaho. Of the total, 20% is distributed to the Alcoholism Treatment Fund, 33% to the Permanent Building Fund, and the remainder (47%) to the General Fund. Historical rates of the tax and its distribution are listed below.

BEER TAX RATE HISTORY AND DISTRIBUTION MECHANISM

	Rate	
Effective	Per 31 Gal.	
Date	Barrel	Distribution Mechanism
Mar-1935	\$1.55	50% to General Fund (GF); 50% to Public School Income Fund.
Jul-1939	\$1.55	100% to GF.
Jul-1947	\$3.10	100% to GF.
Jul-1961	\$4.65	\$3.10 to GF; \$1.55 to Permanent Building Fund (PBF).
Jul-1980	\$4.65	\$2.17 to GF; \$1.55 to PBF; \$.93 to Alcoholism Treatment Fund (ATF).
Jul-1986	\$4.65	47% to GF; 33% to PBF; 20% to ATF.

The projections of General Fund revenue from this source for FY 2005 and FY 2006 are based on an assessment of recent collections, the slow decline in per capita beer consumption, and Idaho population growth.

WINE TAX

Description: (Title 23, Chapter 13, *Idaho Code*)

A tax of \$0.45 per gallon is levied on wine and beer containing more than 4% alcohol sold in Idaho. Of the total, 12% is distributed to the Alcoholism Treatment Fund, 5% to the Idaho Grape Growers and Wine Producers Commission Fund, and the remainder (83%) to the General Fund. Historical rates of the tax and its distribution are listed in the table below.

WINE TAX RATE HISTORY AND DISTRIBUTION MECHANISM

	Rate	State	
Effective	Per	of	
Date	Gallon	Origin	Distribution Mechanism
Jul-1971	\$0.45	All	100% to General Fund (GF).
Jul-1980	\$0.45	All	\$0.40 to GF; \$0.05 to Alcoholism Treatment Fund (ATF).
Jul-1984	\$0.20	Idaho	\$0.15 to GF; \$0.05 to ATF.
	\$0.45	Non-Idaho	\$0.40 to GF; \$0.05 to ATF.
Jul-1986	\$0.20	Idaho	88% to GF; 12% to ATF.
	\$0.45	Non-Idaho	88% to GF; 12% to ATF.
Jul-1988	\$0.45	All	88% to GF; 12% to ATF.
Jul-1994	\$0.45	All	83% to GF; 12% to ATF; 5% to Idaho Grape Growers & Wine Producers Commission Fund.

The projections of General Fund revenue from this source for FY 2005 and FY 2006 are based on a subjective assessment of recent collection history, the trend toward lower wine consumption per capita, the rising popularity of microbrewery beers, and Idaho population growth.

LIQUOR SURCHARGE

Description: (Title 23, Chapters 2 and 4, *Idaho Code*)

Gross revenue is derived from liquor sold by the State Liquor Dispensary. Two percent of gross liquor revenue is dedicated to the Drug Court and Family Court Services Fund. Idaho Law also provides for the following annual transfers from the Liquor Dispensary's net profits (gross revenue less operating costs): \$4.945 million to the General Fund, \$1.2 million to the Alcoholism Treatment Fund, \$0.3 million to the Community College Fund, \$1.2 million to the Public School Income Fund, and \$0.65 million to the Cooperative Welfare Fund. The remaining balance after these transfers is distributed 40% to counties and 60% to cities.

KILOWATT-HOUR TAX

Description: (Title 63, Chapter 27, *Idaho Code*)

Revenue is derived from a one-half mill (\$0.0005) per kilowatt-hour tax on hydro-generated electricity in Idaho. Power used by industrial consumers and for irrigation is exempt from this tax. All collections accrue to the General Fund. This tax has been levied since July 1, 1931.

Basis of Projection:

Kilowatt-hour tax receipts for FY 2005 and FY 2006 are based on an assessment of recent collection history in comparison to river flows, water availability, and changes in power generation capacity.

Historical Data:

MINE LICENSE TAX

Description: (Title 47, Chapter 12, *Idaho Code*)

Revenue is derived from a 1% "profit" tax on Idaho mining operations. Sixty-six percent of the collections accrue to the General Fund and the remainder (34%) goes to the Abandoned Mine Reclamation Fund. This tax has been levied since 1935. It was initially set at 3%. It was lowered to 2% in 1972 and again to 1% in 2002. The sharp General Fund increase in FY 1999, and the sharp refund increase in FY 2000 are due to a large payment (\$1.25 million) that was made under protest in FY 1999 then refunded in FY 2000.

Basis of Projection:

The projections of General Fund revenue from this source for FY 2005 and FY 2006 are based on a subjective assessment of recent collections history, the current and future levels of employment in mining, and relative mineral prices.

INTEREST EARNINGS

Description: (Title 67, Chapter 12, *Idaho Code*)

State Treasurer's income is derived from interest on investments of idle state funds. Investments are made in time certificates of deposit, U.S. Treasury bills, and repurchase agreements. The yield from these investments is related to short-term interest rates, coupled with the amount of fund balances available for the Treasurer to invest. All net interest earnings, except those derived from the trust and agency funds, accrue to the General Fund. Beginning in FY 2000, all interest earned on the Permanent Building Fund balance is retained by that fund instead of being paid to the General Fund. In addition, beginning in FY 2000, the Treasurer is allowed to invest in certain corporate financial instruments and United States Small Business Administration Loans.

For historical data see the "Miscellaneous Revenues" table.

Basis of Projection:

The projections of General Fund revenue from this source for FY 2005 and FY 2006 are based on an assessment of the State Treasurer's fund balances, forecasts of interest rates, and agency expectations. The FY 2005 projection includes approximately \$2.1 million of earnings by the Treasurer from the issuance of a tax anticipation note. The FY 2006 projection does not include tax anticipation note earnings.

COURT FEES AND FINES

Description: (Sections 1-402 and 19-4705, *Idaho Code*)

Revenues are derived from court fees and from 9% of all fines and forfeitures collected pursuant to the judgment of any court of the state. In the case of Fish and Game law violations, 2.5% goes to the General Fund.

For historical data see the "Miscellaneous Revenues" table.

Basis of Projection:

The projections of General Fund revenue from this source for FY 2005 and FY 2006 are based on an assessment of recent collection history, fee changes, and Idaho population growth.

INSURANCE PREMIUM TAX

Description: (Title 41, Chapters 4, 34, and 39, *Idaho Code*)

Idaho's insurance premium tax is applied at a rate of 2.75% of net direct insurance premiums written in the state, except for title insurance, which is taxed at the rate of 1.5%. Property and casualty insurers with 25% or more of their total assets and life insurers with 25% or more of their total life reserves invested in qualifying Idaho investments may qualify for a reduced tax rate of 1.4%.

In 2004 legislation was passed to phase in a single insurance premium tax rate of 1.5% by calendar 2010 for net direct insurance premiums written in the state. The 2.75% insurance premium tax rate reduces to 1.5% points over the six-year period beginning with calendar year 2005. Specifically, the insurance premium tax is 2.5% in calendar 2005, 2.3% in calendar year 2006, 2.1% in calendar year 2007, 1.9% in calendar year 2008, 1.7% in calendar year 2009, and 1.5% in calendar year 2010. This same legislation gradually increases the reduced rate for companies holding Idaho-based assets from 1.4% to 1.5% over the five-year period beginning with calendar year 2006. The reduced rate is 1.4% in calendar year 2005, 1.42% in calendar year 2006, 1.44% in calendar year 2007, 1.46% in calendar year 2008, 1.48% in calendar year 2009, and 1.5% in calendar year 2010. The percent of a company's assets invested in Idaho required for the reduced rate is 25% in calendar year 2005, 20% in calendar year 2006, 15% in calendar year 2007, 10% in calendar year 2008, 5% in calendar year 2009, and 0% in calendar year 2010. The premium tax rate for surplus lines of insurance is 2.75% through calendar year 2006 and 1.5% beginning with calendar year 2007.

Premium taxes are collected on a quarterly prepayment basis based upon a percentage of the previous year's taxes as reported on the company's filed premium tax return. Prepayment percentages are 60% in June, 20% in September, and 15% in December, with the balance due with the filing in March. The fire insurance premium tax collections are dedicated to the Firemen's Retirement Fund.

The Department of Insurance collects a variety of filing and license fees. These revenues are dedicated to the Insurance Administration Fund to fund operations of the Department of Insurance. At the beginning of each succeeding fiscal year, any balance in the Insurance Administration Fund exceeding the current year appropriation by 25% is transferred to the General Fund.

For historical data see the "Miscellaneous Revenues" table.

Basis of Projection:

The projections of General Fund revenue from this source for FY 2005 and FY 2006 are based on forecasts of insurance premium growth, trends in insurance rates and coverage, agency records of insurers qualifying for the lower rate, and company insolvencies that result in credits taken for guaranty association assessments. These variables and parameters are then run through a simulation model of the cash-flow process to capture the effects on prepayment, filing reconciliation collections, and refunds.

ALCOHOLIC BEVERAGE LICENSES

Description: (Title 23, Chapters 9, 10, and 13, *Idaho Code*)

Revenue is derived from the sale of alcoholic beverage licenses to retailers, wholesalers, and manufacturers at a standard fee.

For historical data see the "Miscellaneous Revenues" table.

Basis of Projection:

The projections of General Fund revenue from this source for FY 2005 and FY 2006 are based on a subjective assessment of recent collection history and Idaho population growth.

UNCLAIMED PROPERTY

Description: (Title 14, Chapter 5, *Idaho Code*)

Unclaimed property from bank accounts, safe deposit boxes, travelers' checks, life insurance policies, utility deposits, and the like accrue to the state after certain holding periods. Beginning in FY 1983, amounts in the Unclaimed Property Fund exceeding \$100,000 were transferred to the General Fund. Prior to that time, the excess was transferred to the Permanent Building Fund. Beginning in FY 1995, the Tax Commission transferred amounts in the Unclaimed Property Fund exceeding \$250,000 to the General Fund. The holding period before most types of financial properties are considered abandoned has been reduced from seven years to five years.

For historical data see the "Miscellaneous Revenues" table.

Basis of Projection:

Projections of unclaimed property are based on a subjective assessment of recent collection history.

UCC FILINGS

Description: (Sections 30-1-122, 53-262, and 67-910, *Idaho Code*)

The principal source of revenue from the Secretary of State is derived from the filings of articles of incorporation. The Secretary of State also collects many other miscellaneous fees, such as Uniform Commercial Code (UCC) filing fees and notary fees. From July 1, 1996 to June 30, 2000, most of the revenue collected accrued to the Commercial Affairs Administrative Fund. Since the beginning of fiscal year 2001, these monies accrue to the General Fund.

For historical data see the "Miscellaneous Revenues" table.

Basis of Projection:

Projections of revenue from this source are based on a subjective assessment of recent collection history, recent tax law changes, and agency expectations.

ESTATE AND TRANSFER TAX

Description: (Title 14, Chapter 4, *Idaho Code*)

The Idaho Estate and Transfer Tax is a "Pick Up" tax. The federal code allows a decedent's estate to take a credit against state estate taxes paid, up to certain limits, based on the size of the estate. The amount of Idaho Estate and Transfer Tax due is equal to this credit. The Federal Economic Growth and Tax Relief Reconciliation Act of 2001 phases out this credit in equal steps over the four-year period beginning with 2002. As a result, the amount of Idaho Estate and Inheritance Tax collected will eventually disappear. Ten percent of the amount collected is distributed to the county of probate and the remainder, net of refunds, accrues to the state's General Fund.

For historical data see the "Miscellaneous Revenues" table.

Basis of Projection:

The FY 2005 and FY 2006 General Fund revenue projection for this source is based on a trend analysis of past collections, the impacts of the Federal Economic Growth and Tax Relief and Reconciliation Act of 2001, and judgment.

50

OTHER DEPARTMENTS AND TRANSFERS

The primary revenue sources for this miscellaneous category are receipts from the Department of Finance, Department of Lands, Department of Administration, and Department of Agriculture. Other agencies provide lesser amounts on a sporadic basis. Environmental violation penalties assessed by the Departmenton of Environmental Quality are an irregular income source. The annual transfer to the General Fund from the Federal Power Act (through the State Treasurer) is also included. However, the unpredictable nature of other items included in this source is evidenced by the collection history.

For historical data see the "Miscellaneous Revenues" table.

Basis of Projection:

The projections of miscellaneous General Fund revenues for FY 2005 and FY 2006 are based on a subjective assessment of recent collection history and expected transfers.
